

AMLS

ADVANCED
MINI LINK
SYSTEM

SMALL PLATFORM DATALINK

The Advance Mini Link System (AMLS) is an advanced single unit digital datalink system specifically designed for unmanned platforms. As a cost-effective solution for most requirements known today, this state-of-the-art system uses open architecture and enables full duplex wideband, digital link, error correction techniques and high-rate communication in the Uplink (UPL) and Downlink (DNL) channels. The AMLS can downlink real-time video images, LAN, serial data and information from most sensors operating today. The AMLS is an affordable system that is suitable for mini and small UAS. It is light-weight, small, has low power consumption and combines commercially proven technologies and standards with advanced algorithms, to provide reliability and high performance. The system's full duplex wideband provides one Uplink for the command to UAV and one Downlink that transmits sensor information and related data from the UAV to ground control.

APPLICATIONS

- Loitering Munition
- Mini UAS
- Small Tactical UAS
- UGV

FEATURES

- Long range
- Light weight
- Small size single unit solution
- Low power consumption
- Variable data rates
- Beyond line of sight via relay
- Embedded encryption
- Embedded Video compression

Who We Are

CP Technologies designs, fabricates and integrates standard and customized high-performance computing platforms and LCD monitors for military, industry, and commercial applications.

Using COTS components, CP Technologies provides solutions for customers who need reliable systems that will operate in a variety of harsh conditions and who require revision control and hardware consistency for multi-year programs.

CP Technologies is an ITAR Registered and SBA-certified small business that has been operating in Southern California for over twenty years.

Assembled in the USA
ISO 9001:2015 Certified
ITAR Registered

TECH SPECS

SPECIFICATIONS

INTERFACES	RS-422, RS-232 Ethernet 10/100 Base-T for IP-based data sources Analog video: NTSC, PAL, CCIR & RS-170 monochrome input Digital video interface - SDI
PRIMARY LINK FREQ BAND	S/C Band
MODULATION	GMSK
FORWARD ERROR CORRECTION	Convolution & Reed Solomon
END TO END VIDEO LATENCY	<120ms
VIDEO COMPRESSION	H.264
COMSEC	AES: 256bit
TRANSEC	FH or DHSS
ENVIRONMENTAL CONDITIONS	MIL-STD-810F / MIL-STD-461E
OPTIONAL DATA RATES	2/4/6/8/10 Mbps

GROUND DATA TERMINAL (GDT) / REMOTE VIDEO TERMINAL (RVT)

RANGE	15km (Short Range GDT/RVT) 75km (Med Range GDT/RVT) 150km (Long Range GDT)
WEIGHT	2.5kg (Short Range GDT/RVT) 3.5kg (Med Range GDT/RVT) 23kg (Long Range GDT)
ACCESSORIES	Tablets/Laptops, Control SW, Batteries, Battery Chargers, Tripods, etc.

AIRBORNE DATA TERMINAL

DIMENSIONS	27mm x 95mm x 115mm
WEIGHT	~300g
POWER CONSUMPTION	23W

ENGINEERED TO YOUR SPECIFICATIONS

- In-house engineering department
- Design and build of rapid prototypes. Experience with solving difficult customer application problems through knowledge of the industry and custom system design and manufacturing capability
- Our Engineers use Solid Works 3D CAD modeling software for mechanical design and thermal simulation
- Design experience with MIL-STD-167, MIL-STD-461, MIL-STD-810, and MIL-S-901, in addition to FCC, UL, CE, and country specific agency requirements

REVISION CONTROL & CONFIGURATION MANAGEMENT

- Our Program Managers will assure your products are revision controlled for the life of the program
- Configuration Management to assure TAA Compliance and system compatibility
- One part number for life of the program
- Counterfeit and obsolescence management

FACILITY AND TEST

- All integration work is performed in a state-of-the-art, ESD-controlled facility
- Our facility has 23,000 sqft and has dedicated 12,000 sqft to manufacturing and 3,000 sqft to engineering
- Operate to anti-static standard ANSI/ESD S20.20-2007 and electronics assembly standard IPC-A-610, Revision E-2010

QUALITY COUNTS

- ISO 9001:2015 Certified
- 100% system inspection before shipment
- All integrated systems undergo a minimum 24-hour system test and burn-in before shipment to the customer
- Assistance with 3rd party verification of system specifications
- 5-year warranty on all servers and 3-year warranty on LCD monitor products
- TAA compliant
- Built in the USA
